Nordby Construction Completes New Comcast Tech Building *Ribbon Cutting of New Building Occurs mid-September*

SANTA ROSA – September 1, 2006 – Nordby Construction, a leading North Bay construction company, has recently completed the construction of the new 64,000-sq.-ft. Technical Operations Center in the North Natomas region near the Arco Arena in Sacramento.

The \$12 million, single-story building is a concrete tilt-up structure built on an expansive, nine-acre lot, and will replace the existing headquarters for Comcast in Sacramento. The new building will house approximately 300 employees. Approximately one-half of the building is warehouse for storing equipment and cabling, and the remainder of the facility contains offices, conference rooms, server room and tech area. Extensive parking to accommodate up to 500 vehicles surrounds the building. Architect Gromatzky Dupree & Associates designed the project.

“Despite some unexpected challenges from an unusually wet Winter, we completed the new tech building on schedule,” said John Bare, Project Manager of Nordby Construction. “Our client was enthusiastic that their employees were able to take occupancy while construction was on-going yet nearing completion.”

About Nordby Construction Company

Based in Santa Rosa, CA, Nordby Construction is a full-service general contractor. Founded in 1978, the company builds innovative quality projects within commercial, technological, non-profit, winery, multi-unit residential and hospitality sectors throughout Northern California and adjoining western states. The company is one of the largest general contractors in the North Bay, with 60 employees and more than \$50 million in annual revenues. For additional information on Nordby Construction, its projects and services, visit the company's newly-designed website at www.nordby.net.
