#### Nordby Construction Redesigns Company Website

SANTA ROSA – September 20, 2006 – Nordby Construction, a leading North Bay construction company, is proud to announce the redesign and re-launch of its company website.

Functionality and ease of use for all visitors were the primary goals of the newly-designed website. Some of the significant enhancements include better navigation that provides quick access to information, simplified links to easily find information within the site, and elimination of flash components that made viewing difficult for certain users.

“Our new website is much more user-friendly for our visitors,” said Craig Nordby, Vice President. “We’ve added some new features that provide more clarity and information about our services and our organization, and allow visitors to easily contact us through our site 24/7.”
